---

Gary,

I added the TCL VOC's up today for Vac Box 25141 and came up with somewhere around 438 ppm. Let's go ahead and submit this profile for approval of the debris roll-off into US Ecology and see what they come back with. Would you please go ahead and sign this for me? I can get it into approvals ASAP. Let me know if you have questions.

Thanks,

**Beth Crawford**
